SKU: KM-05163

Take your home spill containment to a whole new level with the NEW Leak Alert Device (LAD)[™] from Killarney Metals. Our metal drip and drain pans are excellent tools in the fight against water damage and mold development in your home. Now you can add LAD[™] -- the Leak Alert Device -- and be notified with an alert whenever your appliance develops a leak into your water containment pan. The LAD[™] will continuously monitor your system for the presence of water. If water is sensed, LAD[™] will send a notice electronically to your smartphone to make you aware of any problems. The device is simple to install and easy to use with its own operations app called TuyaSmart that can be downloaded from the Apple App Store and Google Play. With a quality containment pan for Killarney Metals and the innovative Leak Alert Device, you now have a complete system to protect your valuable home investment.
